Frozen Whipped Topping - [Truwhip](#)

Friday November 13, 2009

If you prefer whipped topping over real whipped cream, there's a new product you should try. Actually, [Truwhip](#) isn't new, but it is to me. What I liked the most about Truwhip is that I didn't get a metallic taste in my mouth like I do with other whipped toppings. Maybe that's because it's 70 percent organic. If you'd like to find out more about Truwhip visit their website at [Truwhip.com](#).
